WHO ARE WE?

Tiledmedia is a young Rotterdam-based start-up creating the world's most advanced solution for streaming Virtual Reality and panoramic video. Our customers are major media and telecom industry players located worldwide, online VR video platforms, as well as developers of VR software in general. Our ClearVR solution consists of two major components: a client-side SDK for streaming low-latency and very high-quality VR, and an AWS-based content encoding and packaging service. On top of these core products we've developed our own VR and panoramic video player to demonstrate the power of our streaming solution. Located in Het Industriegebouw in Rotterdam we're growing quickly and looking for new talent to join us.

WHO ARE WE LOOKING FOR?

We're looking to expand our team with an experienced front-end developer who will lead the development of the front-end of cloud-based ClearVR encoding platform. In this multidisciplinary role, you'll get to shape the design, UI, as well the inner workings of our front-end. In addition, you'll work together with our back-end team to define and maintain the REST APIs between our AWS-based encoding platform and the front-end.

WHAT DO WE EXPECT FROM YOU?

As an experienced developer you have an enthusiastic, proactive and passionate attitude and a 'can do' mentality. You are eager to learn new technologies and thrive in an environment where there's a constant stream of new and challenging problems to tackle. You've got experience in designing as well as developing web-based front-ends and can explain and motivate choices. You're a team player and like to help, and be helped by, others. Above all, you're excited about VR!

To be successful in this role, you:

- Have 2-5 years working experience as a front end developer
- Are analytical, accurate, precise and passionate
- You have a Bachelors or Master's degree in Computer Science, Interaction Technology, Industrial Design Engineering, or a related field
- Have an excellent understanding of HTML5, CSS3 and the latest JavaScript versions
- Have experience with React, Polymer, VueJS or similar frameworks
- Have a healthy interest in back-end technology
- Don't have a 9-to-5 mentality
- Have excellent communication skills and are fluent in English

WHAT DO WE OFFER?

A position in a dynamic start-up team that is growing. We are an integral part of the vibrant Industriegebouw area with regular social drinks (borrels), events, coffee bars and restaurants. We offer flexible working hours. We offer a competitive salary, 30 vacation days per year and travel cost reimbursement. A state of the art development laptop and smartphone of your choice are a standard part of our introduction package, as well a daily fresh lunch, quality coffee and plenty of snacks.

HOW TO APPLY?

Send an email with your motivation and C.V. to hi@tiledmedia.com before the 19th of January. If you want more information before applying, please send an email to the same address and we'll be in touch.
